CAREER SUMMARY

Passionate and detail-oriented Full-Stack Developer with **4+ years** expertise in front-end and back-end development using JavaScript, PHP, CodeIgniter, Laravel, Angular, and WordPress. Skilled in building scalable, high-performance web applications with a strong focus on user experience, database management, and API development. Adept at optimizing web solutions for performance, security, and functionality, with a track record of delivering projects on time and within budget. Seeking an opportunity to apply my technical expertise and problem-solving skills in a dynamic environment to drive innovation and business growth.

CORE COMPETENCIES

HTML | CSS | JavaScript | Bootstrap | Angular | CodeIgniter | PHP | Python | C/C++ | Laravel | Front End & Back End
WordPress (Custom themes, plugins, and optimization) | Database Management | MySQL, Database Design and Optimization
API Development | RESTful APIs, Integration between front-end and back-end | Git, GitHub | Client Interaction | Agile
Optimizing website performance, security, Scalability Team Collaboration & Communication | Sprint Planning, Team Collaboration

CAREER HIGHLIGHTS:

- Full-Stack Developer with 4+ years of professional experience in PHP and JavaScript-based technologies.
- Strong expertise in Laravel, CodeIgniter, Angular, and WordPress, delivering scalable and high-performance web applications.
- Successfully developed and optimized backend systems, improving application performance, security, and maintainability.
- Experienced in building responsive, SEO-friendly frontends with a strong focus on user experience and cross-device compatibility.
- Proven ability to migrate and enhance existing applications, ensuring scalability for growing business needs.
- Skilled in RESTful API development, database management (MySQL), and server handling for seamless frontend-backend integration.
- Delivered multiple client projects across diverse industries, meeting deadlines and quality standards.
- Strong collaborator with stakeholders, translating business requirements into effective technical solutions.

PROFESSIONAL EXPERIENCE:

Full-Stack Web Developer FIDSOR, Islamabad - Pakistan

June 2024 - Present

- Designed and developed custom backend systems using CodeIgniter (PHP framework), implementing secure authentication, RESTful APIs, and optimized MySQL database structures, resulting in a 40% improvement in system performance and enhanced data security.
- Built dynamic, responsive, and user-centric frontends using Angular, improving user engagement and reducing page load time by 35% through performance optimization techniques.
- Designed, implemented, and maintained CI/CD pipelines to streamline deployment processes, and leveraged Docker containers for consistent, scalable, and efficient application environments.
- Led migration and refactoring of legacy applications to Laravel framework, improving scalability, code maintainability, and system stability, which reduced application errors by 45% and enhanced deployment efficiency.
- Optimized Laravel applications through caching strategies, query optimization, and code restructuring, resulting in a 30–50% increase in application speed and improved server resource utilization.
- Customized and enhanced WordPress solutions (PHP-based), including theme development, plugin customization, and feature integrations, improving client website functionality and increasing user retention by 25%.
- Delivered high-quality full-stack web solutions across multiple technologies, ensuring 100% on-time project delivery while collaborating with cross-functional teams including UI/UX designers, QA engineers, and project managers.
- Implemented version control using Git, followed Agile/Scrum methodologies, and maintained comprehensive documentation to support scalable development practices.
- Conducted debugging, troubleshooting, and performance tuning, reducing post-deployment issues by 40% and improving overall system reliability.

Full-Stack Web Developer Massive Dynamics, Islamabad - Pakistan

Mar 2023 – May 2024

- Designed and developed responsive front-end architectures ensuring optimal user experience across devices.
- Built and customized SEO-friendly WordPress websites tailored to client needs.
- Developed and maintained secure and efficient backend systems.
- Created professional logo designs aligned with client branding and business goals.

Full-Stack Web Developer NaqsTech Digital, Lahore, Pakistan

May 2022 – Mar 2023

- Designed scalable front-end website architectures and optimized user interactions.
- Developed and maintained backend web applications using PHP-based frameworks.
- Managed servers and MySQL databases, ensuring system reliability and security.
- Designed and implemented RESTful APIs for seamless frontend-backend integration.
- Collaborated with stakeholders to deliver solutions aligned with technical and business requirements.

EDUCATION:

- Bachelor of Science in Electrical Engineering (Computer Specialization)
University of Engineering & Technology (UET), Taxila, Pakistan Sep 2017 – Jul 2021
- Relevant Coursework: Database Management Systems, Network Security, Microprocessors, Object-Oriented Programming (C++), Data Structures
- Final Year Project: IMU-Based Namaz Khushoo Tracker Sep 2020- Jul 2021

TRAINING AND CERTIFICATION:

- Ultimate AWS certified Solutions Architect Associate |Udemy, June 2026
- AWS for Beginners |Great Learning, Dec 2025
- Data Visualization with Power BI |Great Learning, June 2024
- Data Visualization in Tableau |Great Learning, April 2023
- Python for Data Science |Great Learning, April 2023
